# AI SECURITY FORUM AT ISNR 2026

For the first time at ISNR, the **AI Security Forum** will take place from **19–21 May at the ADNEC Centre, Abu Dhabi**. The conference is a high-level, three-day strategic platform bringing together government leaders, security agencies, technology providers, and AI experts to address the impact of artificial intelligence on national security, cyber defense, policing, critical infrastructure, and defence.

## WHY ATTEND

- Gain **exclusive insights** from government cyber leaders and industry pioneers
- Understand the **real-world impact of AI** on cyber resilience, threat intelligence, and data protection
- Explore **practical use cases**, from AI in utilities, infrastructure and energy security.
- Gain **global exposure** by engaging in thought-provoking discussions on Looking ahead to the next decade of AI-driven security.
- **Network** with senior decision-makers shaping the future of secure AI

## WHO WILL ATTEND

- Government and public sector leaders
- Cybersecurity and AI executives
- Technology strategists
- Defence, intelligence, and critical infrastructure stakeholders
- AI and cybersecurity solution providers
- Regulators and policy advisors

## WHAT TO EXPECT

- **Keynote addresses** by senior government officials
- **Fireside chats** with industry leaders
- **Panel discussions** on themes like AI for Energy, Transport & Smart Cities
- **Technology Showcases** on themes like AI Security Solutions in Action
- **Product and platform insights** shaping the next generation of digital intelligence

## Join the Conversation

Be part of the inaugural AI Security Forum and help define how artificial intelligence can be harnessed securely, responsibly, and effectively in the digital era.
